

CAUSES OF HAIR LOSS

- > The most often cause is androgenetic alopecia (AGA)
- > Causes hairloss as a consequence of genetically predisposed sensitivity to androgens
- > Degenerative changes in hair roots lead to hair loss

WHAT IS EUCAPIL

Eucapil is proven cosmetic against hair loss

Eucapil protects hair roots and thus ceases hair loss

Eucapil acts only locally, without systemic side-effects

A PROVEN COSMETIC AGAINST HAIR LOSS

IN WHAT IS EUCAPIL UNIQUE

Original active substance FLURIDIL

- > A new patented molecule discovered in the laboratories of Biophysica California (patent WO 0158854)
- > It solves the problem directly, only locally and without systemic side effects

Effects verified by a clinical study and 8 years of sale on both Czech and world markets.

Marketing survey has shown satisfaction in 82% of the respondents.
